

Table of Contents

1 Introduction

Boston-Logan International Airport 2002 EDR.....	1-1
Logan Airport.....	1-1
2002 Highlights	1-4
Logan Airport Environmental Review Process.....	1-6
Sustainability at Logan Airport	1-7
Organization of the 2002 EDR.....	1-8

2 Activity Levels

Introduction	2-1
Airport Passengers.....	2-1
Aircraft Operations	2-2
Regional Jet Trends.....	2-3
Passengers and Operations Trend	2-5
Airline Passenger Service	2-5
Cargo	2-8

3 Airport Planning

Introduction	3-1
Projects Completed in 2002.....	3-1
Terminal Area Projects and Planning Concepts	3-2
Service Area Projects and Planning Concepts	3-4
Airside Area Projects and Planning Concepts	3-6
Airport Buffer and Landscaping Projects and Planning Concepts	3-7

4 Regional Transportation Context

Introduction	4-1
Overview	4-1
New England Regional Airport System.....	4-2
Regional Airport Activity Levels.....	4-2
Regional Airport Improvement Plans and Projects	4-6
Initiatives in Support of Regional Alternatives.....	4-8

5 Ground Transportation Improvement

Introduction.....	5-1
Ground Access Modes.....	5-1
Logan Airport Employee TMA.....	5-5
Ground Access Traffic Conditions.....	5-6
2002 Parking Conditions	5-8
Ground Access Planning.....	5-10

6 Noise Abatement

Introduction.....	6-1
Noise Modeling Process.....	6-1
Noise Model Improvements and Inputs.....	6-2
2002 Noise Levels.....	6-16
Noise Abatement.....	6-27

7 Air Quality/Emissions Reduction

Introduction.....	7-1
Emissions Inventory for 2002.....	7-1
Measured NO ₂ Concentrations	7-4
Air Quality Management.....	7-6

8 Environmental Management

Introduction.....	8-1
Stormwater Management	8-1
Fuel Use and Spills	8-3
Tank Management Program.....	8-3
Site Assessment and Remediation	8-4
Environmental Management Plan	8-6

9 Project Mitigation Tracking

Introduction.....	9-1
Project Nearing Completion of Mitigation	9-2
Projects with Ongoing Mitigation	9-5

List of Appendices

MEPA Appendices

- Appendix A – MEPA Certificate and Responses
- Appendix B – Comment Letters and Responses
- Appendix C – Proposed Scope for the *2003 EDR*
- Appendix D – Distribution

Technical Appendices

- Appendix E – Activity Levels
- Appendix F – Regional Transportation Context
- Appendix G – Ground Transportation
- Appendix H – Noise Abatement
- Appendix I – Air Quality
- Appendix J – Environmental Management
- Appendix K – Project Mitigation Tracking

List of Figures

Figure No.	Description	Page
1-1	Locus Map.....	1-2
1-2	Logan Airport looking toward Downtown Boston.....	1-3
1-3	Passengers and Operations.....	1-4
1-4	Nighttime vs. Daytime Commercial Operations.....	1-5
2-1	Distribution of Airport Passengers by Market Segment.....	2-1
2-2	Aircraft Operations at Logan Airport by Aircraft Class.....	2-2
2-3	Scheduled Regional Jet Operations at Logan Airport.....	2-4
2-4	Regional Jet Fleet Mix at Logan Airport.....	2-5

Figure No.	Description	Page
3-1	Terminal Area Projects and Planning Concepts.....	3-3
3-2	Service Area Projects and Planning Concepts.....	3-4
3-3	Airside Area Projects and Planning Concepts.....	3-6
3-4	Buffer Projects and Planning Concepts.....	3-7
4-1	New England Regional Transportation System.....	4-2
4-2	Passenger Activity Levels at the Closest Regional Airports.....	4-2
4-3	Regional Airports' Share of Commercial Airline Passengers.....	4-3

2002 EDR

LOGAN INTERNATIONAL AIRPORT

Figure No.	Description	Page	Figure No.	Description	Page
5-1	Public Transportation Services To/From Logan Airport.....	5-2	7-1	Emissions of VOCs at Logan Airport.....	7-2
5-2	Weekly Maximum Commercial Parking Occupancies.....	5-9	7-2	Sources of VOCs Emissions	7-2
6-1	Relative Contribution of Commercial Jet Operations and Noise at Logan Airport	6-5	7-3	Emissions of NOx at Logan Airport.....	7-3
6-2	Nighttime vs. Daytime Commercial Operations.....	6-6	7-4	Sources of NOx Emissions	7-3
6-3	Hushkitted vs. New Stage 3 Commercial Operations and their Resulting Noise at Night	6-6	7-5	Emissions of CO at Logan Airport	7-3
6-4	Logan Airport Runways	6-7	7-6	Sources of CO Emissions.....	7-4
6-5	Runway Use	6-8	7-7	NO ₂ Monitoring Sites	7-5
6-6	Jet Departures Radar Data.....	6-10	7-8	Cumulative NOx Emissions	7-7
6-7	Jet Arrivals Radar Data	6-11	8-1	Logan Airport Outfalls.....	8-1
6-8	Regional Jet Departures Radar Data	6-12	8-2	MCP Sites.....	8-4
6-9	Regional Jet Arrivals Radar Data	6-13	9-1	Jet Fuel Storage Project	9-2
6-10	Non-Jet Departures Radar Data.....	6-14	9-2	Runway End Safety Improvements	9-4
6-11	Non-Jet Arrivals Radar Data.....	6-15	9-3	West Garage Project	9-5
6-12	Comparison of 60-75 DNL Contours for 2001 and 2002 Operations.....	6-17	9-4	International Gateway Project	9-11
6-13	Comparison of 65 DNL Contours for 2001 and 2002 Operations.....	6-18	9-5	Replacement Terminal A Project.....	9-13
6-14	Noise Monitor Locations.....	6-21			

List of Tables

Table No.	Description	Page	Table No.	Description	Page
2-1	Air Passengers by Market Segment.....	2-2	5-1	Reported Logan Airport HOV Ridership Levels	5-3
2-2	Logan Airport Aircraft Operations	2-3	5-2	Logan Airport TMA Membership.....	5-6
2-3	Air Passengers and Aircraft Operations	2-5	5-3	Logan Airport Annual Daily Traffic.....	5-7
2-4	International Passenger Operations By Market Segment	2-7	5-4	Airport Study Area Vehicle Miles Traveled (VMT).....	5-7
2-5	Cargo and Mail Operations and Volume	2-8	5-5	Parking Freeze Summary.....	5-8
3-1	Logan Airport Projects and Planning Concepts	3-2	5-6	Parking Exits and Length of Stay	5-9
3-2	Status of Logan Airport Projects and Planning Concepts – Terminal Area.....	3-2	5-7	Ground Access Planning	5-9
3-3	Status of Logan Airport Projects and Planning Concepts – Service Areas.....	3-4	6-1	Modeled Daily Operations by Commercial and General Aviation Aircraft	6-3
3-4	Status of Logan Airport Projects and Planning Concepts – Airside Area	3-6	6-2	Percentage of Commercial Jet Operations by Part 36 Stage Category	6-4
3-5	Status of Logan Airport Projects and Planning Concepts – Buffer and Landscaping Program.....	3-7	6-3	Modeled Nighttime Operations at Logan Airport	6-5
4-1	Passenger Activity at New England Regional Airports and Logan Airport.....	4-3	6-4	Summary of Jet Aircraft Runway Use.....	6-8
4-2	Scheduled Aircraft Operations by Classification for New England's Airports	4-4	6-5	Effective Jet Aircraft Runway Use in Comparison to PRAS Goals	6-9
4-3	Share of Scheduled Domestic Departures– Logan Airport and the Eight Regional Airports	4-5	6-6	Noise-exposed Population by Community.....	6-19
4-4	Southwest Airlines Operations at the Regional Airports with the Largest Passenger Volumes.....	4-5	6-7	Estimated Population within 65 dB DNL Contour	6-19
			6-8	Comparison of Measured DNL Values to INM-modeled DNL Values for 2002.....	6-23
			6-9	Cumulative Noise Index.....	6-25
			6-10	Time Above dBA Thresholds for Average Day, 2002	6-26
			6-11	Percentage of Airline Operations in Full Stage 3 Aircraft During 2002	6-28
			6-12	Noise Abatement Management Plan.....	6-29
