GENERAL RULES, REGULATIONS, DEFINITIONS

001. DEFINITION: MASSACHUSETTS PORT AUTHORITY:

Where the term Authority, Terminal Operator, Massport, or MPA is used in this tariff, it shall be held to mean the Massachusetts Port Authority. Massport is not a common carrier nor public utility, and the office of the Authority's Director of the Port of Boston will render all initial interpretations of its tariff. Appeals to such interpretation should be directed to the Federal Maritime Commission.

002. EXCULPATORY TARIFF PROVISIONS:

No provision contained in this tariff shall exculpate or otherwise relieve the Massachusetts Port Authority from liability for its own negligence or impose upon others the obligation to indemnify or hold harmless the Massachusetts Port Authority from liability for its own negligence.

003. APPLICATION OF RATES:

- A) The rates, charges, rules and regulations named in this tariff for services and facilities, shall be applicable on and after the effective date of this tariff, or the effective date of supplements, or re-issues. The provisions of this tariff will apply at the Paul W. Conley Marine Terminal (Castle Island), including the berth no.11/12 portion thereof redesignated as a container facility.
- B) The rates named herein are based on current labor costs for straight time. When upon written application and with advance arrangements requested services are performed during overtime periods and on Saturdays, Sundays and holidays, such services shall be rated at the prevailing charges named in this tariff; plus the applicable overtime differential on labor, along with all relevant assessments and insurances, plus 20%.

004. BULK CARGO:

Any vessel which is not moved promptly upon notice to so move, may be shifted and any expenses involved, damage to vessel or to Massport property during such removal, shall be charged to the vessel, along with all costs for idle labor, crane(s) and equipment resulting from such delay. Credit, which is extended at the discretion of the Terminal Operator, requires payment within twenty days of the invoice date. Failure to pay credit accounts within thirty days shall result in cancellation of credit privileges and the reestablishment of cash terms. If payment is not received within forty-five days, the name of the responsible party will be placed on a delinquent list and such party shall be denied further use of the facility until all outstanding charges have been paid. **Invoices not paid within thirty days are subject to a one and one-half percent (1 ½ %) service charge per month.** The right is reserved by the Terminal Operator to apply any payment received against the oldest outstanding invoices.

The terminal may, at its discretion, require a deposit of sufficient funds in American Dollars to cover all charges, when the written guarantee for payment of such charges is not provided upon request, and/or where the steamship line, agent, person or persons involved are not on the approved credit list of the terminal - or if the parties representing such cargo or vessel have habitually been on the delinquent list. 018. PRE-PALLETIZED, PRE-UNITIZED AND PRE-SKIDDED CARGO:

Pre-palletized cargo refers to identical or nearly identical individual pieces of freight stacked (in such a way as to form a single unit, and in case of pre-unitized cargo strapped-glue-shrunk-wrapped together) on a flat portable platform constructed of wood, metal or other material of sufficient strength to be suitable for the character of the cargo it is to accommodate. Pre-skidded cargo refers to one or more pieces of freight which, to facilitate handling, has been mounted on and fastened to runners (such as planks or beams) of wood or metal. To be acceptable under this classification, the cargo must be set on pallets or runners with openings wide enough to permit free access of fork lift blades, and so spaced as to provide a balanced load when lifted. The shipment must be positioned on the terminal facility, in a motor vehicle, or in a rail car, in such a way that it may be moved without shifting the unit prior to insertion of fork lift blades.

019. REFUSE MATERIALS:

Rubbish, refuse or other materials, must upon demand, be removed from the container marshaling yard, apron, or other areas within the confines of the facility by the person or persons placing it there; otherwise it will be removed at the expense of the party responsible. SECTION I (Continued)

- (B)** The Terminal Operator shall not be liable for loss or damage to freight, cargo, containers, equipment or vehicles at the terminal, other than loss or damage caused by the negligence of the Terminal Operator. In no event shall the Terminal Operator be liable for loss or damage to freight, cargo, containers, equipment or vehicles at the terminal unless notice specifying the nature of the loss or damage is given in writing before or at the time of the delivery of the goods into the custody of the person entitled to delivery. In the event the loss or damage is not apparent, this notice must be given within ten (10) days of delivery. This notice in writing need not be given if the state of the goods has been the subject of joint survey or inspection at the time of their receipt.
- (C)** In no event shall the Terminal Operator be liable for any loss or damage to freight, cargo or containers in an amount exceeding Five Hundred Dollars (\$500.00) per package or in case of goods not shipped in packages, per customary freight unit, unless: (1) notice describing the nature of the goods and declaring a higher value is delivered to the terminal manager or his designee prior to commencement of any services by the Terminal Operator, and (2) a charge in the amount of one percent (1%) of the declared value of each package or customary freight unit is paid to the Massachusetts Port Authority in addition to any other charges due. The Terminal Operator shall not be responsible for any loss or damage where the value of goods has been fraudulently misstated.
- (D)** The Terminal Operator shall not be liable for any delay, loss or damage arising from strikes, work stoppages or other collective bargaining action.
- (E)** The Massachusetts Port Authority shall not be liable for loss or damage at the Terminal caused by use of the Authority's equipment by an independent contractor, other than loss or damage caused by the negligence of the Authority. The conditions set forth in this sub-rule are subject to the provisions of sub-rule 002.

021. SHIPPER'S REQUESTS AND COMPLAINTS:

Shipper's requests and complaints shall be promptly and fairly considered by the Massachusetts Port Authority provided that they are submitted in writing to Massport at the address listed in the tariff record. When the action of the Massachusetts Port Authority in response to a shipper's request or complaint requires tariff change, no such change will be retroactive.

Vessels, their owners, agents, cargo interests and/or other responsible parties shall be held liable for all claims, losses, costs or expenses by reason of property damage, personal injury or death which may occur, directly or indirectly as the result of overweight or improperly stowed containers, or owing to defective reporting of hazardous commodities, weight, volume, character of cargo and/or any other omission or error in the documentation furnished by the vessel, its owners, agents, cargo interests or other parties, without regard as to whether such omission(s) be intentional or accidental. Entry upon or docking at the terminal by any person shall be regarded as constituting an agreement by such person to comply with said rules and regulations. SECTION II

DOCKAGE

028. DOCKAGE DEFINITION: The term Dockage refers to the charge assessed against a vessel for berthing at the facility or for mooring to a vessel so berthed. The period of time for which Dockage shall be assessed against the vessel shall commence when such vessel is made fast to the wharf, bulkhead, or to another vessel so berthed, and shall continue until such vessel has completely vacated such berth. In the event that the vessel should call at more than one Massport terminal on the same voyage, Dockage charges will be assessed as if the entire cargo complement had been discharged and/or lifted at a single terminal, and will be subject to only one minimum charge.

029. DOCKAGE RATES:

(A) **Self-Propelled Vessels:** Dockage will be assessed against the vessel, its owners, agents, or operators on the basis of ***the Length Overall (LOA) of the vessel*** for the period the vessel remains at the berth. *The maximum length, published Lloyd's Register of Shipping, shall be used in determining the length overall for the vessel. Dockage will be assessed against the vessel, its owners, agents or operators at the rates shown below on a per twenty-four hour period or fraction thereof.*

LOA	RATE
Less than 500'	\$840.00 per vessel
500 to 600'	\$7.72 per foot
601 to 1000'	\$8.82 per foot
Over 1000'	\$9.98 per foot

(B) **Inactive Status:** Dockage for ships not using the terminal to load or discharge cargo shall be **\$840.00** per twenty-four hours or fraction thereof. Permission for such dockage shall be at the discretion of the Terminal Operator.

(C) **Idle Status:** Whenever a ship is berthed at the terminal with the permission of the Terminal Operator, in idle status, prior to the commencement or subsequent to the completion of loading and/or unloading cargo, a charge of **\$42.00** per hour or fraction thereof, will be assessed against the vessel, owner or operator. Idle status charges will be assessed only for those hours prior or subsequent to any twenty-four hour active loading or discharging Dockage period.

SECTION II (Continued)

- (D) **Non-Self Propelled Vessels:** A charge of **\$2.45** per foot in overall length with a minimum charge of **\$840.00** per twenty-four hour period or fraction thereof, shall be assessed against seagoing and/or intraport barges berthing or making fast to the wharf for the purpose of loading and/or discharging cargo directly to or from the pier.

030. DOCKAGE RULES AND REGULATIONS:

- (A) **Application for Berth Assignment:** All vessels desiring a berth at the terminal shall, as far in advance of the date of docking as possible, make application therefor in writing to the Terminal Superintendent, specifying the estimated date and time of arrival and sailing. The vessel shall furnish, at the earliest possible opportunity, and in any event, **not later than 12:00 noon prior to the posting of labor orders for the vessel**, a copy of the ship's stowage plan, hatch list, inward and/or outward cargo manifest, list of reefer containers, list of dangerous cargo containers, list of damaged containers, and list of containers and/or cargo requiring special handling. The vessel shall be held liable for claims, losses, costs or expenses by reason of property damage, personal injury or death which may occur, directly or indirectly as the result of defective report of hazardous commodities, weight, volume, character of cargo and/or any other omission or error in the documentation furnished by the vessel in compliance with this provision, without regard as to whether such omission(s) be intentional or accidental.

SECTION II (Continued)

- (B) **Notice of Release of Berth:** When for reasons over which the applicant has no control, it becomes necessary to cancel or postpone berthing assignments, due notice (24 hours) shall be given sufficiently in advance to prevent any loss of Dockage charges; otherwise the Terminal Operator reserves the right to assess against the vessel, owner or operator a dockage charge of **\$504.00**, and to use the berth for other purposes.
- (C) **Notice to Vacate Berth:** Vessels using the facility must agree to work continuously, using the cranes and equipment to the fullest extent possible. Vessels will leave the facility immediately upon completing discharge and loading operation unless special permission for a later departure is granted by the Authority. When a vessel is waiting to use a berth which is occupied by a vessel about to complete its operation, the terminal will give the vessel on berth advance notice to that effect and request the vessel to vacate the berth within thirty minutes after completing its loading and/or unloading operation. Vessels refusing to vacate the berth when requested to do so will be subject to a charge of **\$315.00 straight time, \$845.00 overtime, and \$1,079.00 double time** for each fifteen minute period said berth is occupied and unavailable.
- (D) **Vessels Docking Without Permission:** The terminal governed by this tariff was purpose-built to conform strictly with the prevailing commercial and ship requirements of ocean common carriers transporting break bulk and containerized general cargo in foreign or domestic waterborne trades; and are not equipped to adequately accommodate other types of vessels, particularly those designed to carry hazardous bulk liquid commodities in shiplot quantities. Such vessels shall not be permitted to tie up at the pier without the explicit approval of the Port Director or designee, except under declared emergency situations. Vessels, whether under load or in ballast, docking or making fast to the wharf without the express permission of the Massachusetts Port Authority will (pursuant to Sub-rule 12 of this tariff) immediately be given notice to vacate the berth and a fine of \$2,000.00 shall automatically be assessed to the owner/operator thereof in accordance with Section 3 (a) of Massport's Enabling Act (Chapter 465, Mass. Acts of 1956).
