## Available COVID-19 testing technologies

Below are the tests XpresCheck currently offers. Our facilities are operated by licensed doctors, nurses, and other trained health care personnel.

- Rapid PCR Test -
  - A sterile swab is inserted into your nose to collect a specimen. This PCR test actually detects RNA that is specific to the COVID-19 virus and is run on-site to check if the active virus is in your body.
    - Results are made available while you wait.
    - Insurance not accepted
    - Results delivered in as little as 60 minutes
    - price \$250
- Standard Polymerase Chain Reaction (PCR) Test
  - A sterile swab is inserted into your nose to collect a specimen.
    - This PCR test is sent to an outside lab to check if the active virus is in your body.
    - Results may take a few days.
    - Insurance accepted for lab fees only
    - Results in patient portal in 48 - 96 hours
    - Price \$75
