RESPONSES TO
QUESTIONS and/or RFI's
Date: February 21, 2019

The attention of Contractors submitting General Bids and or Filed Sub-Bids for the above referenced project is called to the following Responses to Questions and/or RFI's.

Responses to Questions and/or RFI's:

Aggregate Industries electronic mail to CPBidQuestions from Kevin Riley email dated 02/20/2019:

Item #1 – Contract Specification P-401

Summary of Question:

Please clarify the Material Transfer Vehicle (MTV) requirement for this project (P-401-4.3.1) specifically with respect to the Authority's discretion to waive "if the pulls are less than 250' or impact operations due to.....".

Design Team Response:

Addendum Number 3 will clarify this via a note on the Contract Drawings. Given the phase limitations and inability to expand work limits to accommodate a Material Transfer Vehicle (MTV), it is not required to be used as part of this contract.

Aggregate Industries question from Kevin Riley at Pre-Bid Conference Wednesday, February 20, 2019.

Item #2 – Contract Specification P-401

Summary of Question: “Will the smoothness criteria for profilograph testing be waived?”

Response: Yes, Addendum Number 3 will clarify this via a note on the Contract Drawings.
