**TO: All Subscribers of the Massachusetts Port Authority Container Tariff No. 1 and Valued Customers**

The Board of Massachusetts Port Authority voted to increase rates in its **Container Tariff No. 1**, which applies to the Paul W. Conley Container Terminal. The rate changes are **effective October 1, 2020**.

These rate increases will offset the increased fringe benefit costs associated with the ILA master collective bargaining agreement. The rate increases will also assist in financing critical Conley capital projects including the dedicated freight corridor and buffer zone, crane upgrades and yard equipment purchases planned for the facility. The rates were last increased October 2019.

Additionally, some language changes were incorporated into the tariff to more correctly reflect the application of charges.

The tariff is available through the Authority's website site at:
