**Comments**  
Please see the attached October 2020 Monthly Sampling Report. A wet weather event was not conducted in October 2020 as it was a relatively dry month with only two storms with at least 0.1 inches of precipitation that met antecedent dry weather conditions. of these storms, sample collection was not viable as rainfall started at 5 AM more than two hours after morning low tide and nearly two hours before sunrise. The second storm on October 28 was not forecasted to be greater than 0.1 inches by weather forecasting agencies hence the sampling was not accomplished.
