

A450-Authority Wide Elevator, Escalator & Moving Walkway Modernization Program

RESPONSES TO QUESTIONS November 30th, 2023

The attention of consultants submitting proposals for the RFQ is called to the following Addenda & Responses to Questions to the subject RFQ. The items set forth herein, whether of omission, addition, substitution, or clarifications are all to be included in and form a part of the proposal submitted.

Responses to Questions:

1. Question : Is Massport intent on the prime being an architect for this opportunity?

1. *Answer: The Authority will select what they determine to be the best qualified consultant team to manage the modernization project of the identified transportation systems. The project will involve significant architectural scope and project coordination that would normally be expected to be carried out a project architect prime, however, applicants may submit a qualifications package that specifies a consultant other than an architect as the prime for consideration, if they choose to do so.*
