Responses to Questions:

1. Page 5 of the RFQ states "All individuals responsible for technical disciplines shall, upon commencement of the project, be registered Architects or Engineers, in that discipline, in the Commonwealth of Massachusetts". Because the scope of services for this project does not include architecture or engineering, could you please confirm that it is acceptable for the proposed

personnel to hold appropriate experience and qualifications relevant to their respective disciplines - such as Cost Estimating, Scheduling, Project Management, Construction Management, and similar fields - rather than being licensed architects or engineers?

Yes, it is acceptable.

- 2. Page 6 of the RFQ states "no more than ten pages (5) sheets" - Can you please confirm that this is 10 single-sided pages (5 sheets if printed double-sided)?**

Yes
